

**Dear Hiring Manager,**

Since your advertisement appeals to me very much, I hereby apply for the advertised position.

From 2008-2012, I completed my Bachelor's degree in computer science engineering at the Anna University, India.

From 2012-2014, I have been working as Manual QA Tester at Accenture Services Pvt.Ltd, India. Here the focus is to identify and report bugs, errors, and glitches to the development team. Collaborate with QA engineers to develop and strategies plans. Execute manual test case and analyse result. Creation of logs to document testing phases and defects. Conducting regression testing, post-release/post implementation testing to help troubleshoot issue. Documenting reproduces steps for the bugs reported.

From 2015-2020, I have been working as a Software Developer at Accenture Services Pvt.Ltd, India. Working experience with Asp.Net MVC, C#, JavaScript , jQuery , HTML, CSS. I worked as a back-end developer for the in-house application.

From 2020-2022, I have been working as a Sitecore Developer at Zivra Technologies Pvt.Ltd, India. Working experience with Sitecore CMS, ASP.NET MVC, C#, JavaScript, HTML, CSS, jQuery, GIT, TFS and familiar with postman tools. Here I worked as a backend developer with the middle east client project. I worked with Insurance and energy domain.

I took a career break for a year and currently looking for a Software Tester to resume my career and am available to join immediately.

With Kind Regards

Bhuvaneshwari Basanth Cruz Baptist.
